

## PATEL ENGINEERING LTD.

### QUALITY, OCCUPATIONAL HEALTH & SAFETY AND ENVIRONMENT POLICY

We at Patel Engineering Limited, engaged in delivering complex infrastructure projects with time- tested construction methods with cutting-edge technologies, believe in enhancing customer satisfaction with timely project deliveries, while adopting best practices in Quality, Occupational Health & Safety and Environment (QHSE).

We are committed to sustainable and achievable QHSE performance at all levels of the company by establishing continual improvement philosophy.

To accomplish this commitment, we will ensure that:

- Comply with all the customer requirements with the use of updated technology, competent manpower and effective project monitoring.
- Comply with all applicable Quality, Occupational Health, Safety and Environmental statutory, regulatory and other requirements.
- Protect all personnel involved in our activities, to prevent ill health, injuries.
- Ensure prevention of pollution and protection of environment by adopting to clean and green technologies. Ensure environmental protection; mitigate climate change issues biodiversity and eco system.
- Ensure employee, contractor, workers participation and consultation for continual improvement of business process, our construction products, occupational health, safety and environmental performance and developing a healthy lifestyle culture.
- Ensure that the contractors are aware of our policies and standards. Raise their awareness wherever necessary to meet the requirements of the system by reviewing our QHSE performance regularly.
- We communicate to all our stakeholders, employees and our interested parties, the essence of our QHSE policy and make it available to them by adequate measures.
- Ensure continual improvement in all IMS performance.

We strive to build positive and productive working atmosphere by sharing best practices and knowledge.
